1. Event upload
Enter your event: at the end, a confirmation message will appear once the upload is complete.

2. Email notification
You will receive an email confirmation whether your event is approved or not.
In both cases, you will be able to access your reserved area using the email address entered during the upload phase and an OTP code.
In the reserved area you will find:
- the list of your uploaded events;
- the possibility to edit them or add new ones.

Once approved, the event will be visible on the map.

3. Unapproved events
If your event is not approved, you will receive an email and you can contact Slow Food directly to know the reason and make any requested changes.

4. Account deletion
To delete your account, you will need to request it from Slow Food.
⚠️ Attention: deleting your account will also result in the deletion of all events linked to it.
